SAFETY, HEALTH AND ENVIRONMENTAL POLICY.

The Management of ZSTS dedication to quality and efficient management are second to none in the construction industry in the UAE.

ZSTS takes all necessary measure to ensure all practices and procedures adapted at the workplace comply with the Acts, Regulations, code of practice & guidelines governing occupational Health and Safety Acts Those employees holding supervision posts are trained to exercise strictest safety measures and to promptly report any hazards/accidents to management. All employees, therefore in their own interest are obligated to strictly adhere to health & safety ACT.

PROJECT QUALITY POLICY, OBJECTIVES AND MANAGEMENT RESPONSIBILITY.

It is the policy of ZSTS to operate an Integrated Management System in accordance with the requirements of ISO 9001:2015, ISO 14001:2015, and OHSAS 18001:2007 and to produce a service that conformsto specified standards of quality, reliability and performance.

AATS is committed to delivering the highest standard of quality professional services to clients by converting concepts/designs into reality. ZSTS strives to achieve highest level of customer satisfaction and to lead the path of continual improvement.

The objectives of the Quality Management System are:

- To ensure that the project and services provided meet/exceed the customer expectations and other stakeholders.
- A commitment to continual improvement in QHSE Management.
- ZSTS recognizesQHSE performance asthe responsibility of everyone and topmanagement will ensure its effective implementation and continual improvement

MANAGEMENT RESPONSIBILITY

Top management of the organization set the policies and goals to achieve. To achieve the targeted goals organization is always using the art-of-the technology and best industrial practices. AATS has started implementing QMS and putting the maximum efforts to make the employees aware of QMS & HSE and its importance. For effective implementation the organization uses the best communication practices, organize various training programs and workshops. Various (direct & indirect) procedures are developed and incorporated in the QMS manual for effective implementation and some of them are briefly as follows

- Internal audits at specific intervals.
- Issuing Non-Conformance Reports (NCR) during the audits if necessary and follow-up until close them with proper corrective and preventive actions.
- Suggest and implement corrective and preventive actions to closed the NCR
- Technical training programs/ workshops on updated technologies of constructions.
- Safety & First Aid training programs for various level from officersto workmen.
- Organization of workmen development programs

MANAGEMENT REVIEW

Scope: Cover the activities followed in the management review to the managerial system.

Procedure Description:

Review Input

- Results of Audits(NCR Status)
- Feed Back
- Process Performance and Conformity.
- Status of Corrective / preventive action
- Follow-up Action from Previous Management Review.
- Changes that could affect the Managerial systems.
- Recommendation for Improvement.
- In case of 18000 and 14000 – Legal and other Requirement Emergency
- Preparedness and Response

Review Output

- Action
- Responsible and Time Frame
- Follow-up Date

Record / Tools

- Agenda notes
- Management review report form.
