INTRODUCTION

SKETCH AND SCALE has been established company owned and operated by technically savvy experts in management and technical sector. We represent a complete interior and storage solution to our valued customers. SNS has evolved into one of the region's leading interior and racking contractors establishing a solid track record for successfully completing interior and racking projects in time, to budget and to the quality standards required by our clients.

Our vision and core values are reflected in our dedication and accomplishments, they encapsulate the motivation that inspires SNS to be a specialist interior and racking contractor of the highest order.

SNS is firmly established at the leading edge of the industry. We pursue excellence, innovation and professionalism for everything we undertake. We are committed to serving our clients better and are constantly in search of new ways of working to improve our business for the benefit of our clients.

SNS is focused on quality, our objectives are to provide a quality product delivered in a quality way. The SNS quality analysis system provides means to monitor, maintain and improve the quality of the service we provide to our clients throughout each project. We strive to make the SNS experience enjoyable and to consistently exceed the expectations of our clients.

Our client satisfaction is important to us. All the activities are mainly classified into interior, exterior and racking Projects. We facilitate above mentioned services on turnkey basis to our valued customers.

OBJECTIVES

SNS give major importance in planning, programming and managing the project with a professional and experienced interior and racking team. We concentrate in providing the highest quality of product and delivering services to clients who are occupying to new premises or reorganizing within the existing building.

Our Knowledge in the interior and racking market and extensive work experience in UAE ensures all the operational issues are considered and planned for. Client's requests are treated with highest priority. We are committed to respond to each request in the fastest possible manner to make sure that all our clients will receive the best possible.

A large percentage of our project is conducted in occupied premises and we have the management skills and systems to sensitively control all site activities. Before commencing any new project we establish good lines of communication with building management, landlords and tenants and provide effective protection to base building and common areas.

Our structure and improved systems ensure that knowledge and experience is shared throughout the company. Our policy of involving all our employees in both the improvement process and training schemes means that the enormous wealth of skill and experience is ultimately translated into benefit for our clients.

MOTIVATION & INNOVATION
